

NEED A SKIP?

THEN WHY NOT HIRE A SKIP TODAY!

We are a locally family owned business who have been trading for 12 years doing Wheelie bins under Rangiora Rubbish Removal Ltd and have 3 staff members.

We decided to call our skip side of the business RRR Skips which is short for Rangiora Rubbish Removal because we didn't want to limit our work just to the Rangiora region due to our name. We can cover from Christchurch to Culverden and surrounding areas.

We have a brand-new Bi-fold gantry skip truck and all brand-new bins and the bins are up to a high standard always. We can unload skip over low fences to avoid blocking your driveway. No job is too big or small for us.

We are 100% work safe compliant at building sites and we can change bins over from building waste to hardfill and gib board skip which will save the builder money.

We can offer 9, 6, 3 and 1.5 cubic metre skips or any other size we can custom make.

We are happy to move bins on site when needed.

For builders, we offer a 9-cubic metre skip plus a 1.5 for recycling. the 1.5 skip is only \$1.00 a day with no collection costs long as is emptied with the 9-metre skip.

With the skips, we will sort any rubbish from green waste at a reduced cost, rubbish and hardfill. We will also handle all your recycling needs.

We also specialise in farm waste and will recycle all we can. We can also carry multiple skips at once to keep your cost down. We can deliver all landscape needs and leave skip on property so there is no mess.

We will service any building site residential or business site. We can custom build and paint to your needs. We offer smaller skips with lid and on wheels for shops and smaller businesses.

Specialising in Business, Rural, Domestic, Commercial. Recycling on building sites, farms, commercial, domestic.

100% locally owned & operated
